About Us

Driven by Community, Success and Design

Crafting a sofa isn't about seating—it's about sowing the seeds of community.

From the grassroots of residential bliss to the skyscraping heights of urban innovation and the warm hospitality spanning our nation, we're not just assembling sofas, we're building bridges.

We're architects of connection.

Each stitch embodies our commitment to building not just furniture, but bonds that weave together families, businesses, and the spirit of our nation.

Think of us as the matchmakers of comfort, uniting people, making the world feel welcome in our home.

Our aim is to build skill and community between the manufacturer, designer, and the end-user allowing us to be the best at what we have done over the last 21 years.

As a family-owned and run business, you'll be treated like one of us.

Partners

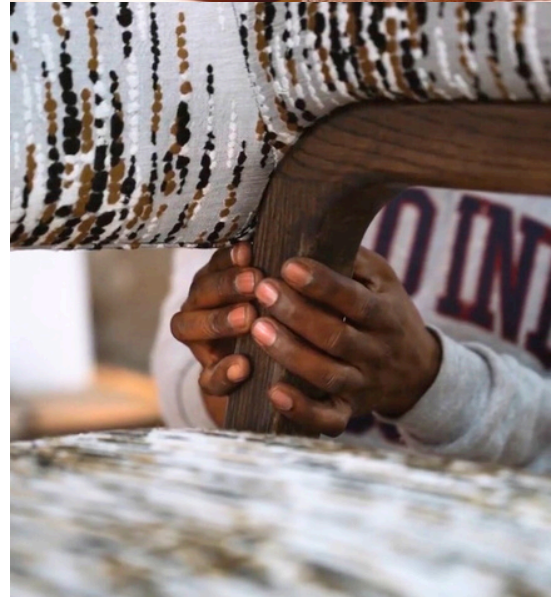

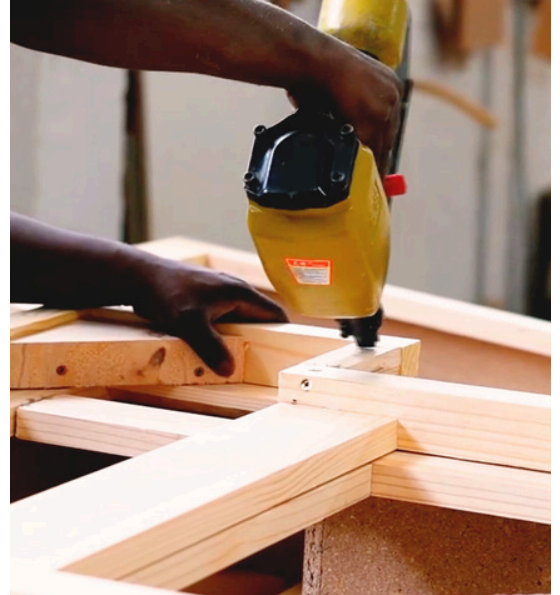

We've partnered with Home Fabric's FibreGuard through our retail store—**Jehz Sofas**.

Jehz Sofas is our high-end brick-and-mortar retail store that exclusively sells furniture with FibreGuard fabric.

Jehz is our answer to servicing people who have an eye for design and want something unique in their home.

It's a library of furniture.

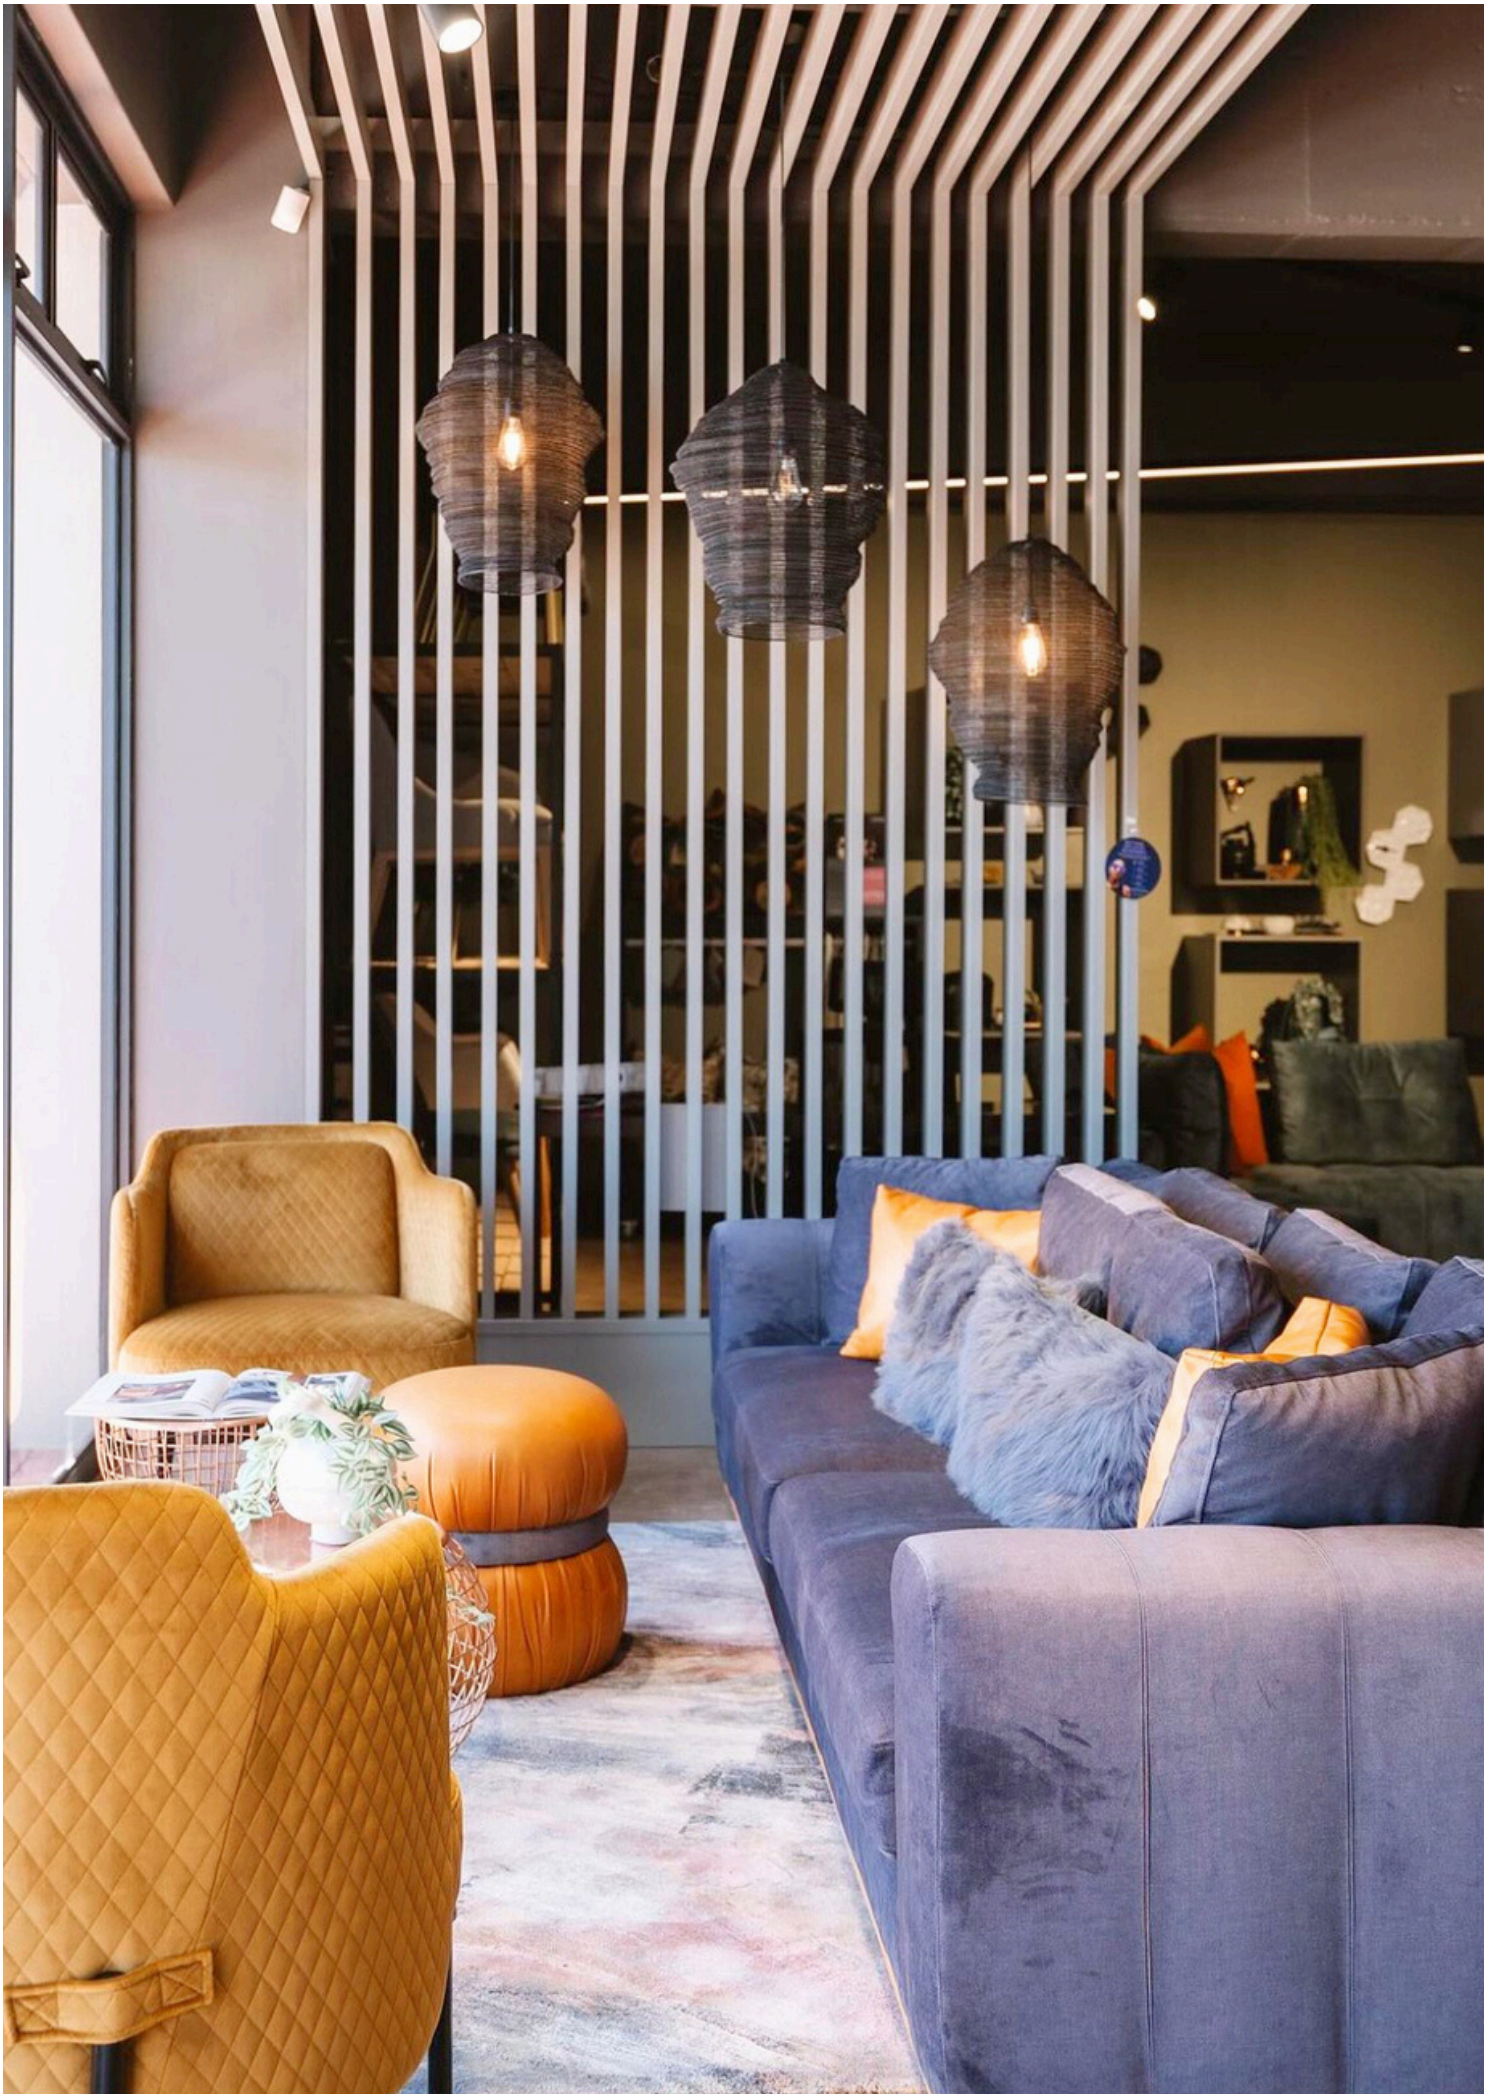

We're proud to have the FibreGuard team believe in us and what we're building.

Products

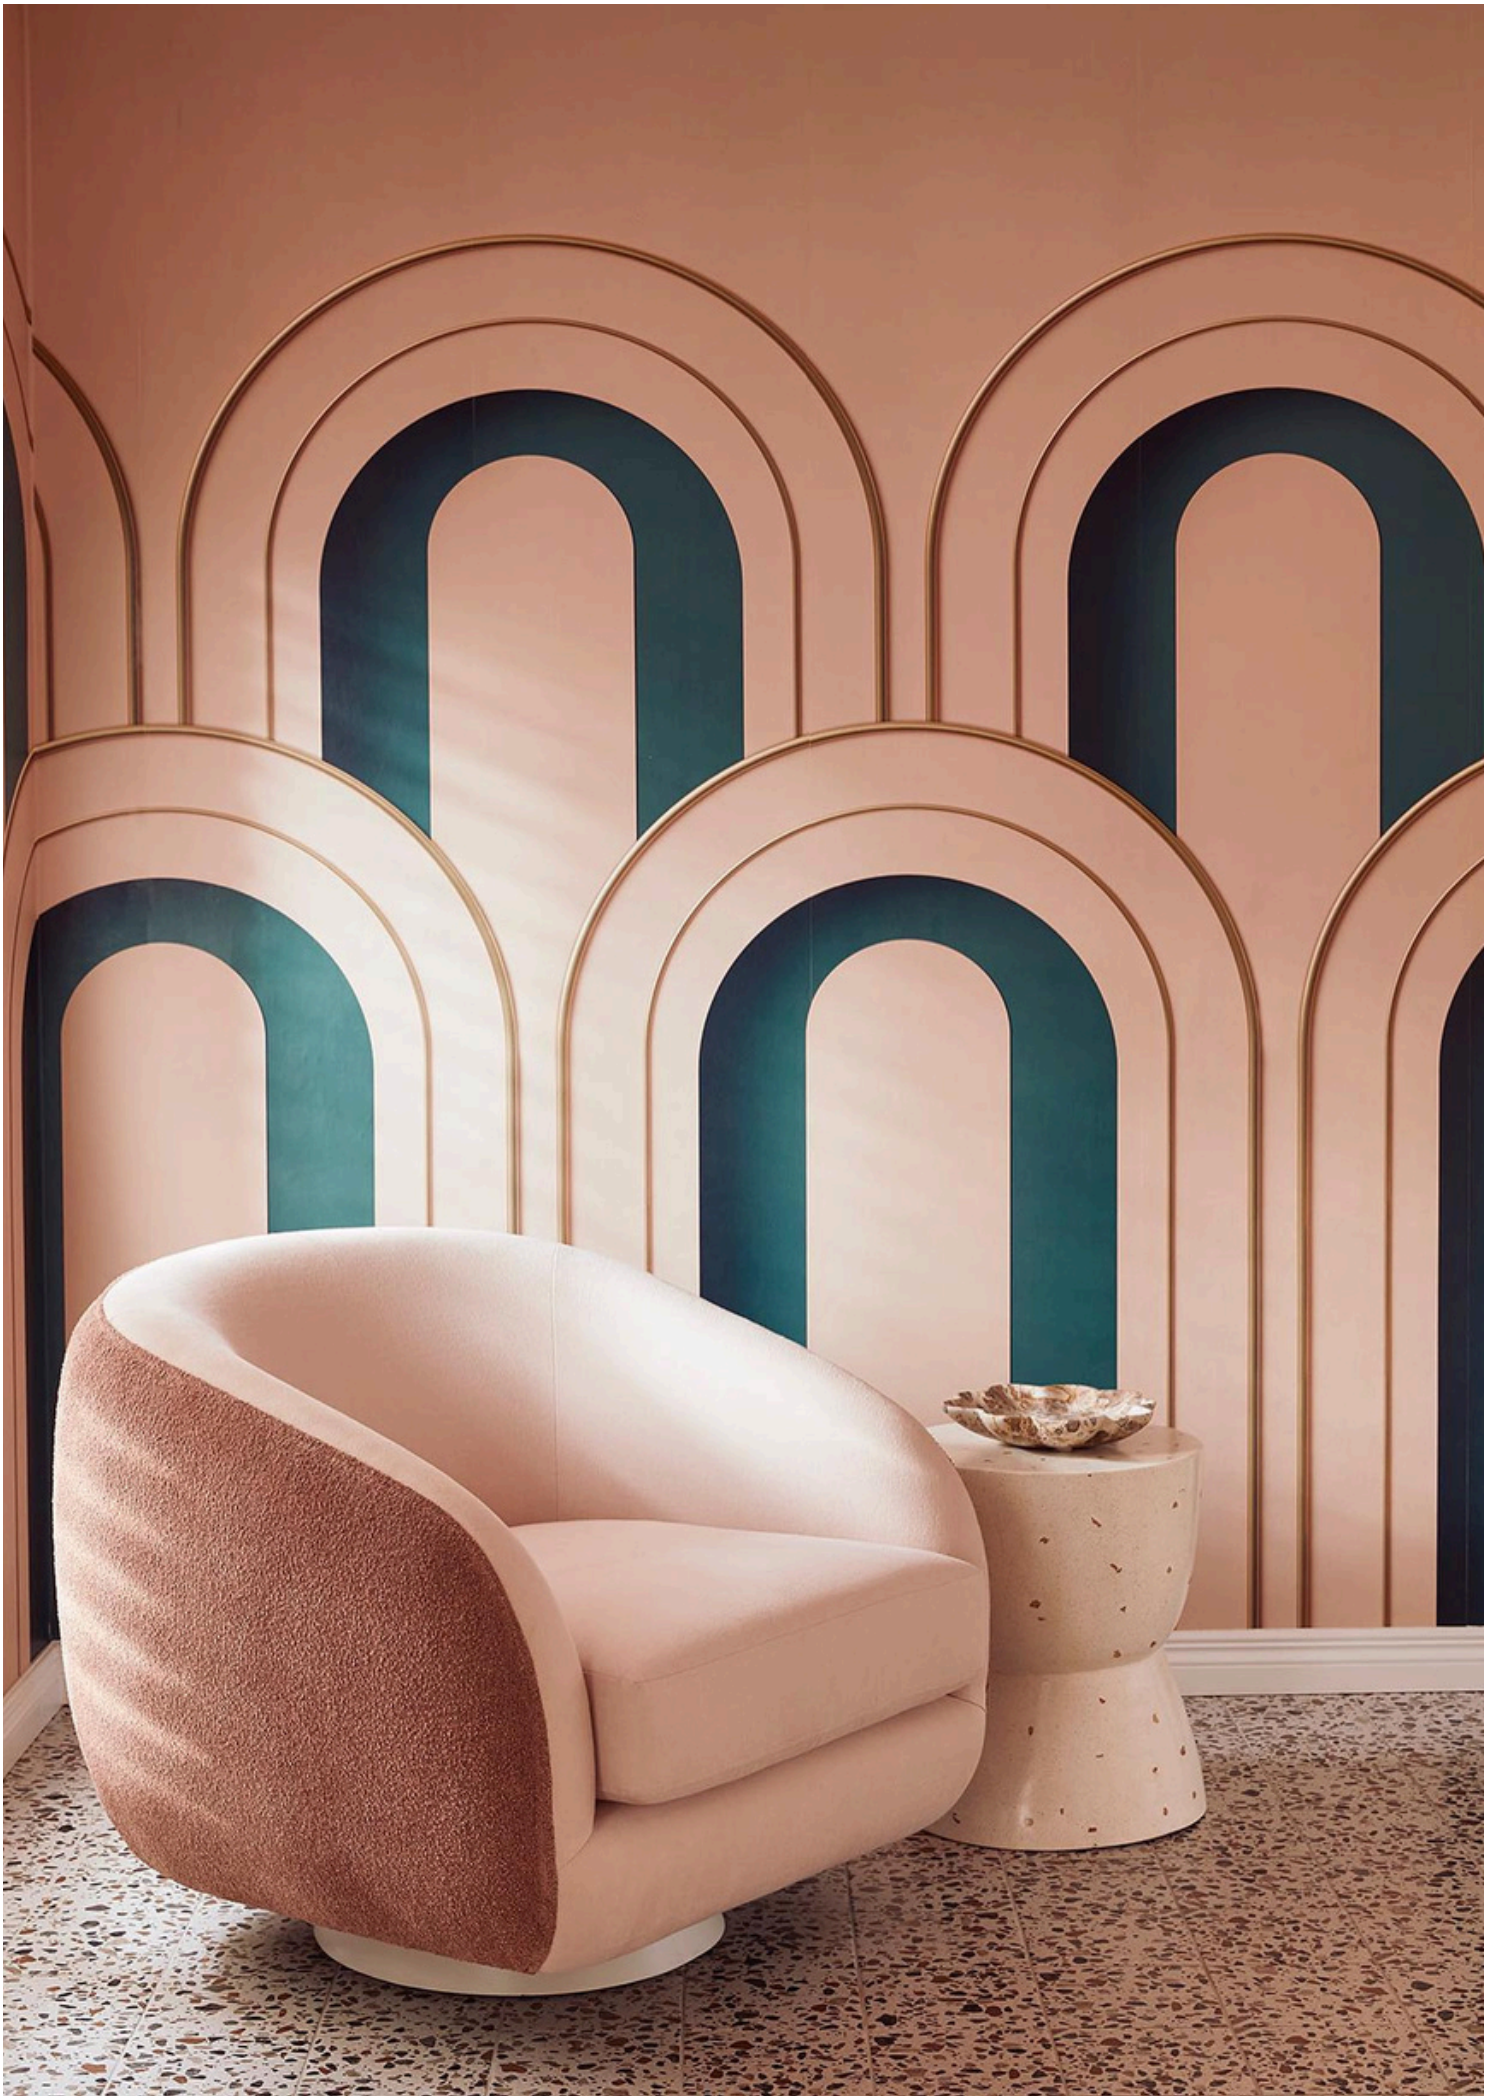

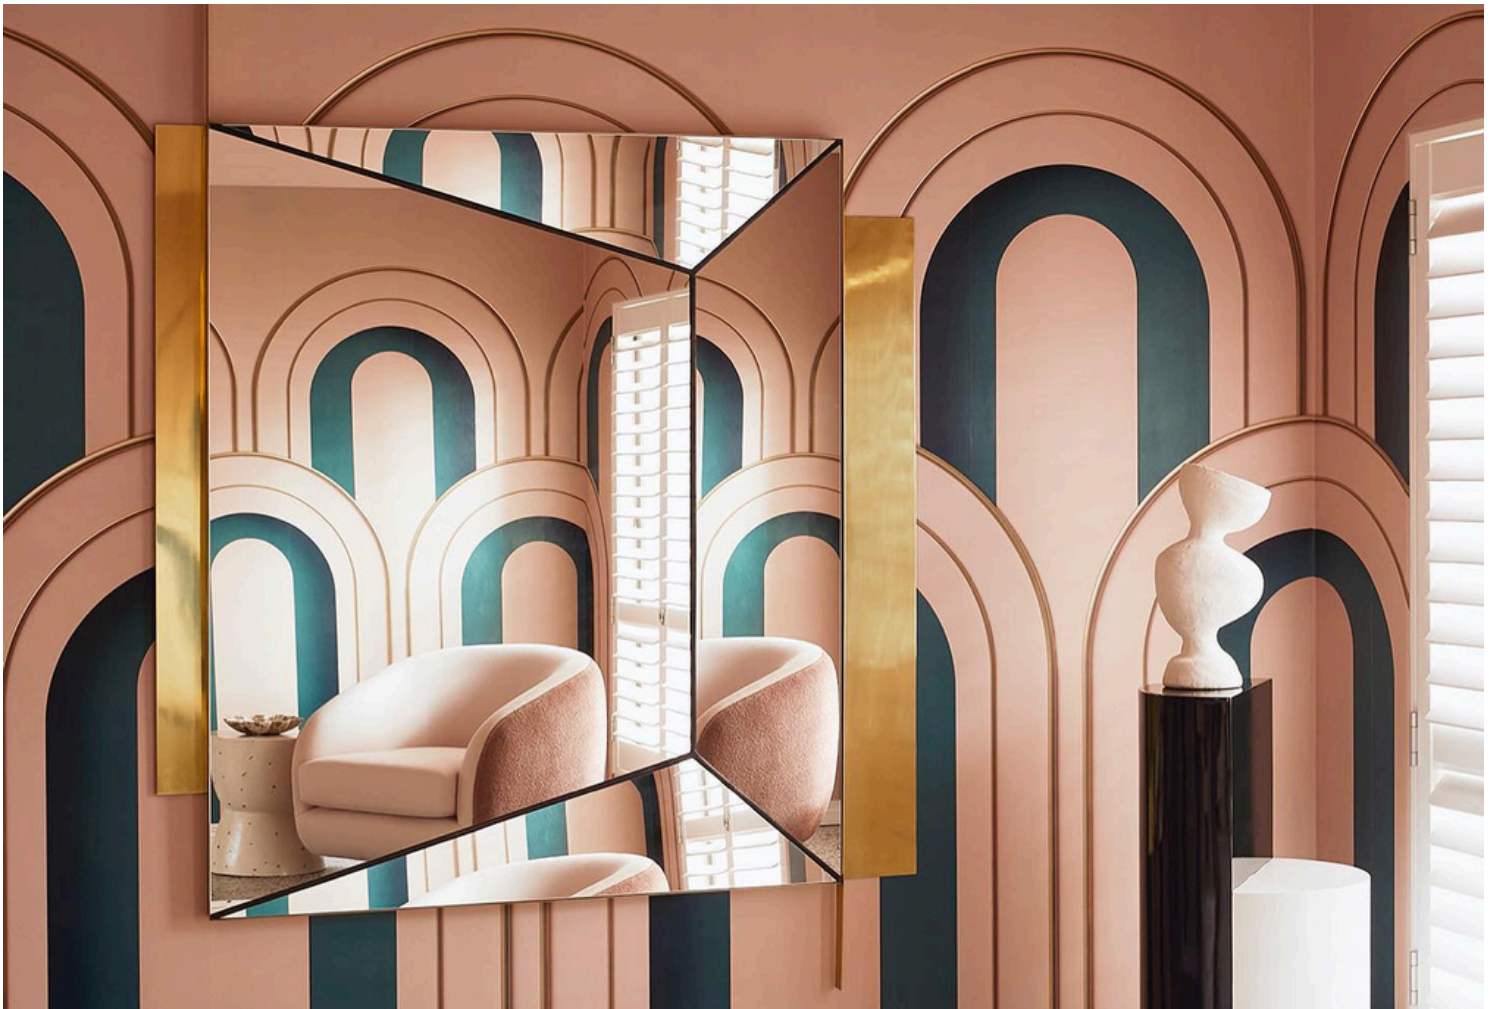

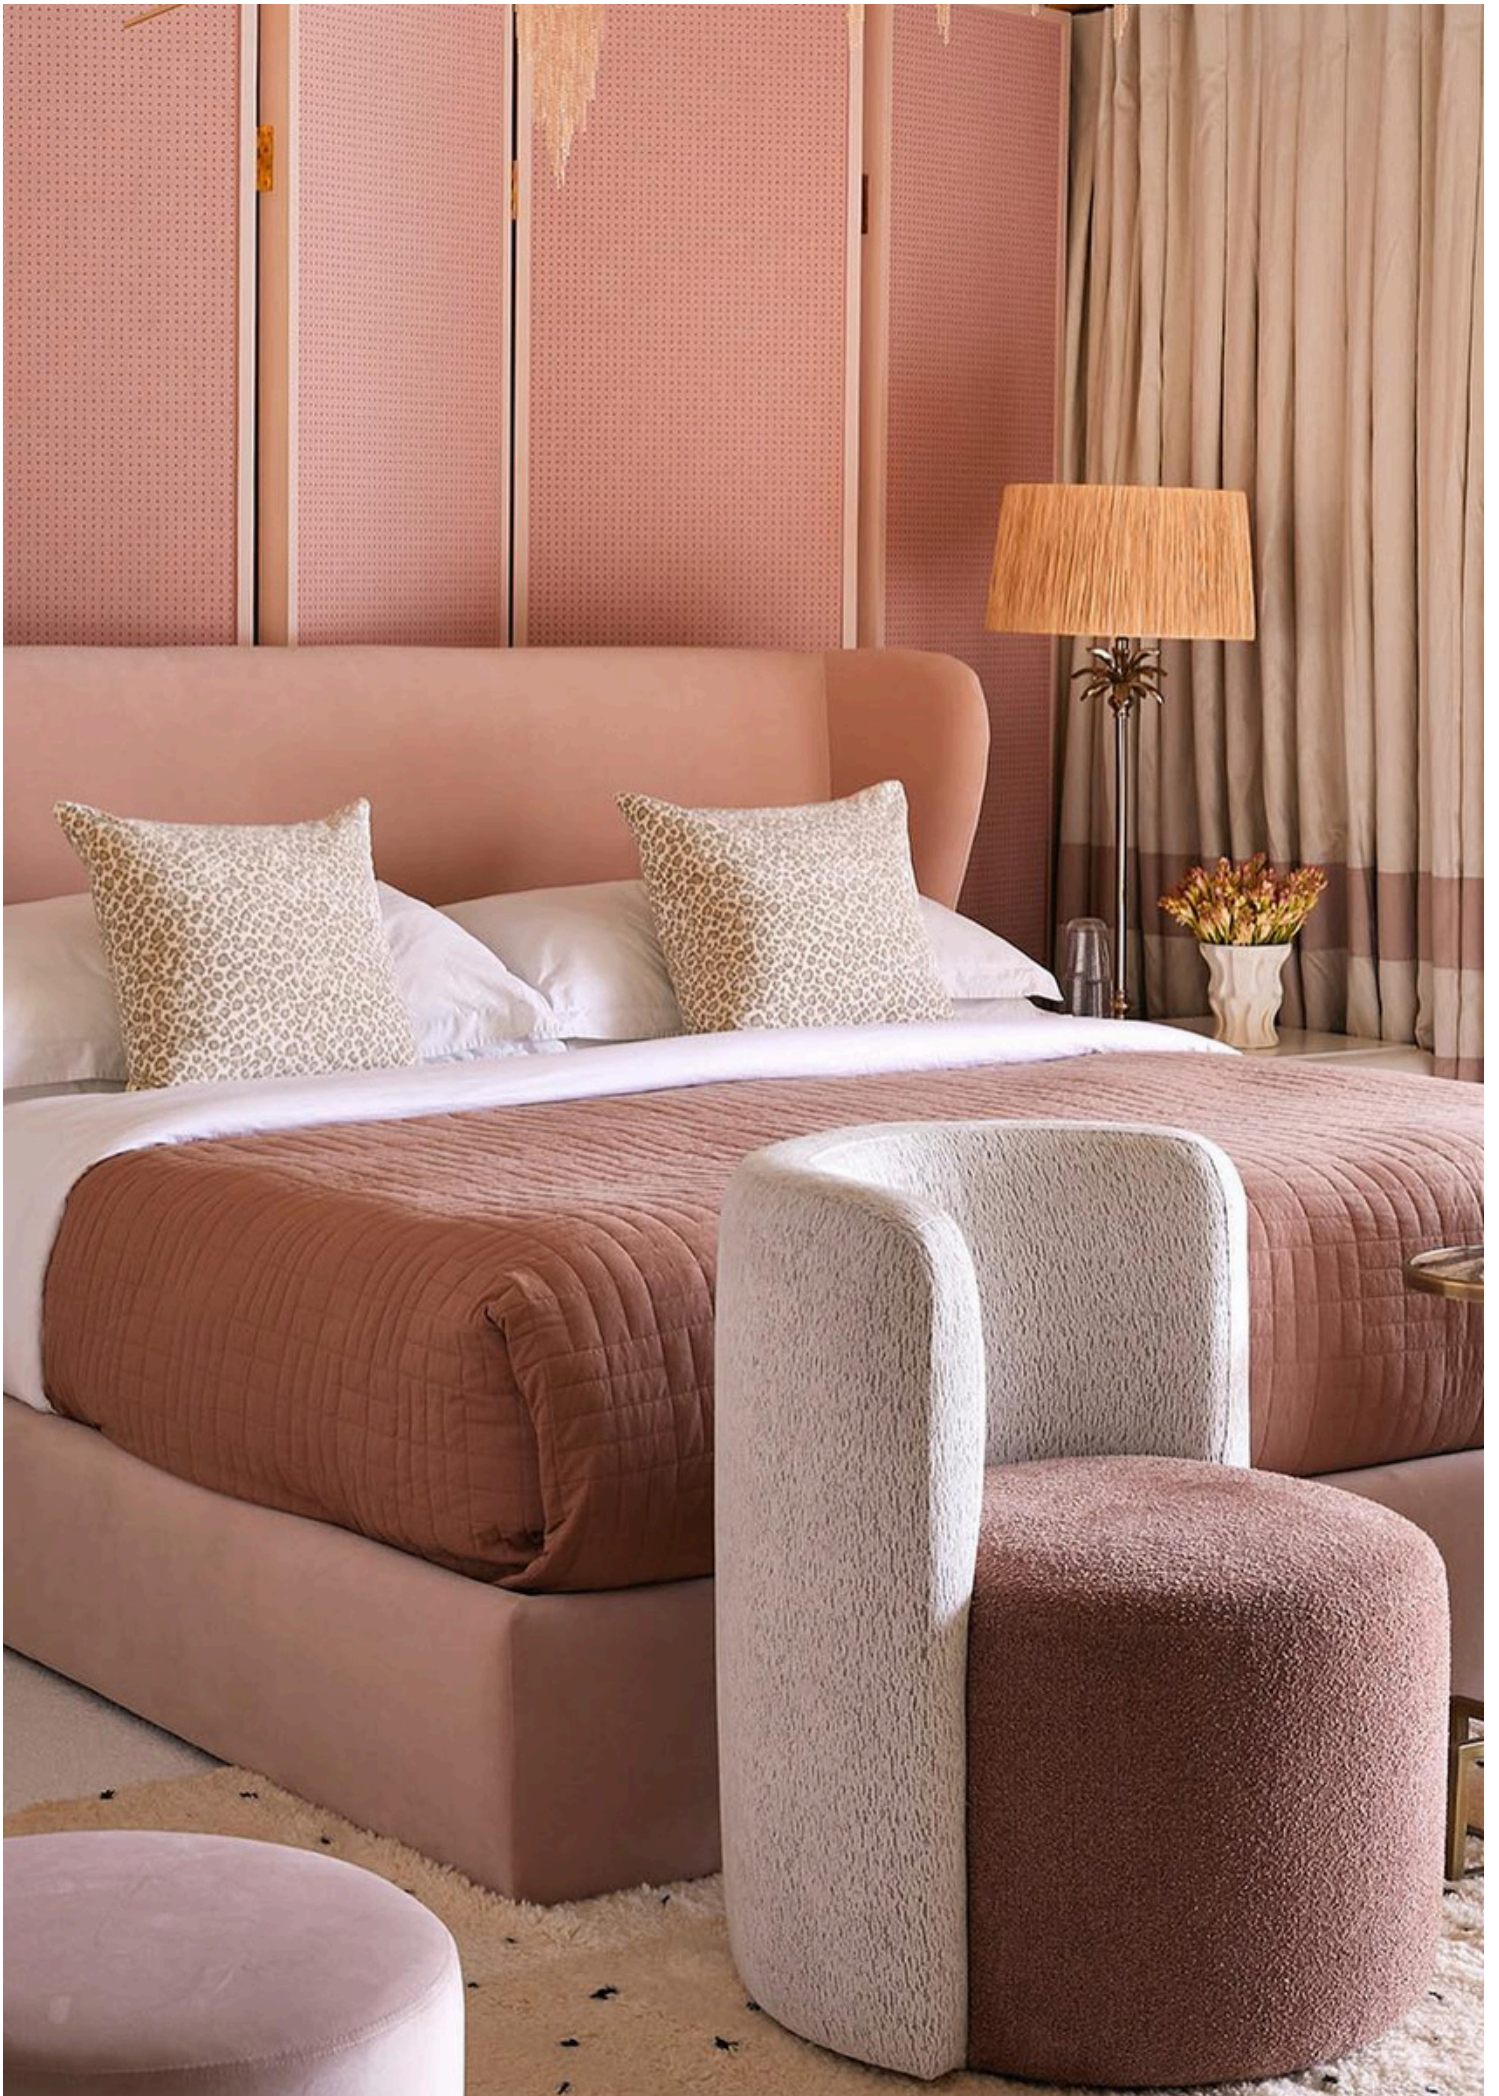

A photograph of an outdoor lounge area on a wooden deck. In the foreground, there is a dark wooden coffee table. Behind it is a light-colored sectional sofa with white quilted cushions and two dark grey accent pillows. The background features a large glass wall reflecting the outdoor space and a stone pillar. The overall scene is bright and modern.
